

Kaelyn Johnson

Toronto, Ontario | kaelyn.johnson88@gmail.com | 289 - 385 - 3097

PROFESSIONAL SUMMARY

Customer-focused professional with 3+ years of experience in customer service, administrative support, and high-volume operations, combined with hands-on technical troubleshooting experience diagnosing and escalating issues in a fast-paced manufacturing environment. Skilled at identifying root causes, documenting findings clearly, and coordinating with the right teams to resolve issues efficiently. Currently completing an Advanced Diploma in Artificial Intelligence – Software Engineering Technology, developing technical foundations and skills relevant to IT and cybersecurity.

CORE COMPETENCIES

- Customer Support & Issue Resolution
- Data Integrity & Records Management
- Technical Troubleshooting
- Escalation Procedures & Documentation
- Team Collaboration & Training
- Microsoft Office 365

PROFESSIONAL EXPERIENCE

Production Team Lead

March 2022 – January 2026

General Motors | Oshawa, Ontario

- Supported daily operations within a high-volume automotive manufacturing environment producing 230+ vehicles daily, monitoring equipment and identifying operational issues
- Diagnosed technical and equipment issues, escalating concerns to the appropriate department to minimize downtime and maintain production readiness
- Logged and tracked equipment issues, repairs, and escalations using GM's Global Standardized Inspection Process (GSIP) system, ensuring accurate documentation for maintenance and quality teams
- Maintained accurate production logs, technical findings, and compliance documentation to support operational performance and reporting
- Trained and supported new employees on procedures, safety standards, and quality expectations, serving as a point of contact for troubleshooting and questions
- Collaborated with production, maintenance, and leadership teams to resolve workflow issues and support daily operational targets

Administrative Customer Service Representative

June 2017 – March 2022

City of Toronto | Toronto, Ontario

- Managed front desk operations at an inner-city community center, resolving participant inquiries and directing complex issues to the appropriate department
- Reported capacity, space availability, and program concerns to senior staff, escalating issues as needed to support timely resolution
- Maintained accurate records and verified data integrity across internal systems, ensuring consistency and compliance
- Utilized ActiveNet registration and booking software to manage participant accounts, process registrations and financial transactions, and support daily program administration
- Signed participants into daily programs, answered phone inquiries, and directed customers to the appropriate department, communicating clearly and diplomatically while managing competing priorities

EDUCATION

Artificial Intelligence – Software Engineering Technology (Advanced Diploma) | *Centennial College* | Scarborough, Ontario | Expected 2027 (In Progress – Online)

ADDITIONAL INFORMATION

- Pursuing CompTIA Security+ certification to build foundational cybersecurity knowledge alongside ongoing studies
- Available to work flexible hours, including evenings, weekends, and holidays
